INTERACTIVE WORKSHOP

Bill Martin and Mary Wilson

Meeting Your Leadership Challenges

Note:
This Interactive Workshop is intended to complement Bill Martin’s featured presentation.

In this highly energizing workshop participants will interact with Bill and Mary to compare and contrast the thinking processes they use as they practice leadership with those Bill and Mary have used to create award winning schools in the United States and New Zealand. Participants will be introduced to 14 leadership challenges that all leaders must meet. You will be asked to share the thinking processes you have learned and used in your life to meet the challenges. The interaction will be framed by Bill’s and Mary’s sharing of stories from their own leadership journeys detailing the challenges they have faced and the thinking processes they used to meet them.
